

COMMUNICATION NOTICE TM-05 – PLEASE SHARE

- What:** A new Bat Cave location for the 5 Bay Expansion Plan that will be starting soon **on a trial basis**. From Saturday, March 26 after 2nd shift thru Sunday, April 3, 2022 there will be approximately 65 parking spots unavailable to park in.
- Where:** Located in the Employee Parking Lot – East section, at the South end (see Page # 2).
- Why:** The current Bat Cave will be relocated during the 5 Bay expansion. Current plan is to place in the East lot. We want to see the impact of parking spot availability for employees, especially during shift change, before making a final decision on the temporary Bat Cave proposal.
- How:** The area will be blocked off with Jersey Barriers. This will reduce approximately 65 parking spots. In addition, the 11 Handicap spots displaced by this trial will be relocated nearby as shown on Page # 3.
- When:** These ~65 parking spots will be unavailable starting Saturday, March 26th (after 2nd shift) thru Sunday, April 3, 2022.
- Who:** This change impacts anyone who parks in the Employee Parking lot East, South end.
- NOTES:** The photos below show the actual parking section to be closed off (temporarily for 1 week).

Sky Bridge

These 11 Handicap Spots

Gate 6 Turnstile

Will Relocate To Here

This area will be closed for parking for 1 week
